

## PALANCA DESLIZANTE ENTRE EJES 85 CILINDRO EUROPERFIL LEVA CORTA

## SERIE 1984

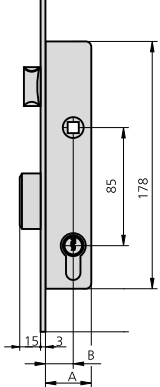

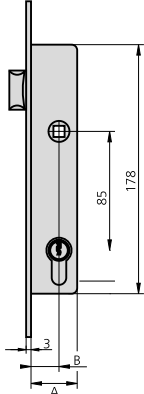

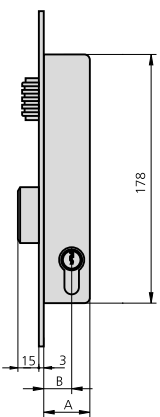

## CARACTERÍSTICAS

- Frente hierro niquelado ó acero inoxidable
- Caja bicromatada
- Palanca deslizante
- Picaporte reversible
- Cuadradillo de 8 mm
- Cilindro europerfil
- 2 escudos de nylon ref. ES1984
- Tornillo de fijación de cilindro

## ACCESORIOS OPCIONALES

- Cerraderos según cerradura
- Gama completa de cilindros

| DESCRIPCIÓN                                                                                                                                                                                                                                                                                                                                                                                                                      | REF.      | MEDIDAS |    | LEVA  | ACABADOS |          | UDS                                                                                 |                                                                                     |
